Applies to the following printer models:

Printer Models	Now	First Build
<ul style="list-style-type: none">ZD230TAZD888TA	V102.01.02	V102.01.01

Note: This does not apply to printers with Link-OS firmware.

Changes

1. Firmware V102.01.02 is the initial version for new models ZD230TA and ZD888TA.
2. To incorporate ANZ SKUs into the V102 firmware family.

Frequently Asked Questions

1. Why should I upgrade to V102.01.02?

Zebra continually revises and adapts our printer operating system to keep it current with the latest technology trends and best practices. Version V102.01.02 now includes ANZ SKU to the V102 firmware family without basic feature changes from the previous version. Upgrading to V102.01.02 is optional.

2. How do I get firmware V102.01.02?

Firmware V102.01.02 can be downloaded from the ZD230TA or ZD888TA product support page by using the link below and entering your printer's model name (such as "ZD230TA" or "ZD888TA").
zebra.com/zd230ta-info or zebra.com/zd888ta-info

3. Can the printer downgrade to an earlier version if V102.01.02 is installed?

Yes. The system supports printer downgrading to V102.01.01 if necessary.
